### Heating Oil Service

The **Silver Plan** covers many things that typically go wrong with your system and includes a tune-up as needed to increase your system's longevity and performance.

#### Annual Tune-Up

The annual tune-up will be performed once during the Service Agreement term during regular working hours as scheduled by our service department. The annual tune-up includes:

- ▶ Test and adjust oil burner for Maximum efficiency, using Combustion testing Equipment.
- ▶ Inspect combustion chamber.
- ▶ Clean and check electrodes and nozzle assembly.
- ▶ Install customer-supplied air filters. We supply oil filter cartridge and burner nozzle if necessary.
- ▶ Oil all motors on burner, fans and circulators.
- ▶ Check all safety and operating controls.
- ▶ Vacuum clean appliance and flu pipe, including chimney base (where accessible), as necessary.

F.C. Haab Company will repair or replace during the life of this agreement, at no extra charge to our customer, any of the following parts which may become defective due to normal use or wear and tear. There are no extra charges for emergency repairs no matter when you call us.

### Loyalty Credits

It is our goal to reward our loyal customers. You earn \$50 credit for each year you purchase a service plan, up to a total of \$500 during your lifetime as our customer. You can use a portion of these credits toward the purchase of a variety of "oil" heating and cooling equipment (the figures on the right show how much can be used for any one item.) Credits are not transferable. They have value only as a credit toward the following "oil" equipment purchased from The F.C. Haab Company by its customers.

Oil Fired Boiler.....	\$500	Oil Water Heater.....	\$250	Oil Burner.....	\$100
Central A/C System.....	\$300	Air Conditioner Compressor.....	\$100	Oil Furnace.....	\$400

### OIL TANK PROTECTION PLAN

*Please call for pricing*

Our **Homeowner's Tank and Environmental Loss Protection Program** protects you from the high costs of replacing an oil tank or cleaning up a tank accident.

For just pennies a day, this plan provides:

- ▶ Up to \$100,000 for cleanup costs in the event of an oil release
- ▶ Replacement of your oil tank
- ▶ Complete management of your cleanup project

This is available for any tank that is less than 3,000 gallons in capacity.

### General Conditions

1. We reserve the right to inspect and approve the equipment covered before accepting the Service Agreement. Initial repairs required to put the burner in an acceptable condition are not covered. All plans will automatically be renewed from year to year unless terminated by either party. Service under any plan will be suspended if customer's oil or service charges are not paid when due.
2. If buyer permits any persons other than our employees to render service to the equipment except as instructed by us, the plan is void.
3. Plans include only the repair and replacement of parts specifically listed herein, which are defective due to ordinary wear. They do not cover any service or repairs to the entire boiler or burner, heat exchanges, jackets, water heaters or any part not specified in the plan.
4. We are not responsible for replacement parts that are obsolete or not obtainable.
5. Customer agrees to purchase all fuel requirements from F.C. Haab, Co. Inc. on an Automatic Delivery basis or otherwise the contract is voided and no refund is due.
6. We shall not be liable for any loss, damage or injury arising from the services performed or parts supplied under the Agreement unless the loss, damage or injury is caused directly and solely by our own negligence.
7. We shall not be liable for any loss, damage or injury which results directly or indirectly from the condition of customer's chimney, oil tank or equipment not covered by this Agreement, or unoccupied homes.
8. This Agreement covers only labor and/or parts required directly on the oil burner, controls and specified other parts which are a part of the heating system. Service labor and parts required as the result of abnormal conditions, such as war, fire, floods, hurricanes, strikes or other Acts of God; or failure of purchaser to properly maintain the heating and domestic hot water heating systems; power interruptions; blown fuses or circuit breakers; water damage; thermostat not calling for heat; failure of purchaser to maintain sufficient oil level in the tank when on a "Will-Call" delivery basis; will be billed at prevailing prices.
9. We do not guarantee the availability of any repair or replacement parts.
10. Prices quoted refer only to burners up to three gallons per hour. Prices for other burners are available on request.
11. Suspended overhead units or units in crawl spaces are subject to a \$125 surcharge per unit.
12. This Agreement contains the entire Agreement of the parties hereto and there are no promises, terms, conditions or obligations other than printed herein.
13. There will be no refunds on any unused portion of the plan, although it may be transferred to a new occupant subject to our approval.
14. Unoccupied Buildings. Under no conditions are we liable for damage resulting to unoccupied buildings or for damage to their contents, or for any other loss directly or indirectly related to the heating system.
15. Emergency service is defined as no heat or hot water during the heating season or other dangerous situations. All other calls are handled during normal business hours-Monday through Friday, 7 a.m. to 5 p.m. Routine and seasonal turn on/off are not included under this Agreement.

**PLEASE KEEP FOR YOUR RECORDS.**
